

## About Us

Patriot Energy Group is a full-service energy procurement and management firm specializing in electric and natural gas supply procurement for commercial, industrial, and government organizations. We will help you implement strategies to control and reduce your energy costs. As one of the largest retail electric and gas brokers in the Northeast, Patriot Energy Group manages a high volume of transactions on a daily basis and has successfully secured competitive supply arrangements for over 14,000 clients.

We will provide you with the expertise and transparency necessary to make an informed decision when selecting a purchasing strategy best suited for your facilities' unique consumption profile, as well as your short and long-term business needs. Patriot Energy Group's dedicated and knowledgeable client representatives are available to meet with you to answer questions, review our products and services, and help you design a customized purchasing strategy for your business.

When choosing Patriot Energy you will still be a valued customer of the local utility that "delivers" your electricity or natural gas to you. They will still maintain the wires, pipes and meters that transport the electricity and natural gas to your business. However, through competitive supply, you will have the ability to control your energy supply and associated costs. Patriot Energy Group's team of friendly experts is always ready to help you with any questions you may have, so please contact us today.

Expertise	Transparency	Reliability	Flexibility	Simplicity	Price
Our expertise is at the center of what we do. We have the most knowledgeable energy experts in the industry, so you can trust our insight.	We feel that it is our responsibility to ensure that you have maximum transparency with our services; more information means more choice for you.	Our goal is to provide you with the most reliable information and help you make the best choices when it comes to your energy needs.	We offer many different products and services to help you meet your needs. We can tailor many of our programs specifically for you.	We have designed all of our products to be simple to understand and we will help you with any questions that you may have.	We are able to find some of the most competitive rates in the country because of our strong negotiating power with suppliers.
<b>Customer Needs</b>					

We manage over \$500 million worth of energy.

We have over 14,000 clients.

## Solutions

### Electricity Solutions

There are numerous ways to buy electricity. Based on the market, client's risk tolerance, usage patterns, size and specific business goals, Patriot Energy will work with you to design a purchasing strategy.

### Natural Gas Solutions

Natural Gas markets can be very volatile which makes managing this expense extremely difficult for businesses. At Patriot Energy we have a variety of plans that clients can choose from to meet their goals.

### Green Energy Solutions

Patriot Energy offers a variety of programs designed to promote efficient and intelligent energy use. We have all of the resources needed to successfully plan and execute a comprehensive energy solutions program for our clients.

## Products

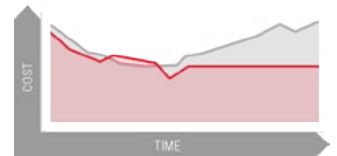

### Freedom Plan (Fixed Rate)

If your business needs price stability and budget certainty, Freedom Plans from licensed suppliers allow you to lock in a fixed price for a given volume of electricity usage over a particular contract period.

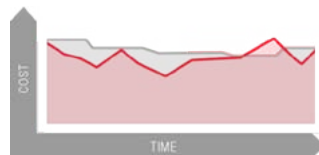

### Liberty Plan (Hybrid Rate)

If your business wants to take advantage of group buying power during spring and fall "shoulder" months to lock in fixed pricing during traditionally low-demand times during the year, but wants index-based pricing immediately, you can choose a hybrid aggregation plan.

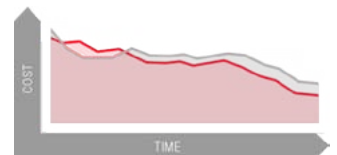

### Independence Plan (Hourly Indexed Rate)

If your business wants to take advantage of hourly wholesale market (ISO) energy pricing, Independence Plans allow you to go with the market without risk premiums associated with fixed price offerings.

### Patriot Plan (Structured Energy Management)

If your business wants the convenience of calendar-month billing, as well as the benefits of wholesale market index pricing, the Patriot Plan offers a unique strategy that satisfies both of these needs.
